# Adore yourself

For Women who want moisturising skincare that leaves skin feeling soft and smooth.

Skin adores Glysolid<sup>®</sup>. Absorbed immediately by the skin, Glysolid<sup>®</sup> supplies high quality essential fatty acids and moisturisers.

Glysolid<sup>®</sup> contains Allantoin to aid the repair of skin tissue for healthier looking skin and Glycerine to smooth and protect skin from dehydration.

Glysolid<sup>®</sup> is excellent for sensitive skin, being pH neutral, and formulated without preservatives, colour or fragrance.

AUST R 10484

Available at Pharmacies and Health Food Stores.

## Adore Glysolid<sup>®</sup> for softer smoother skin

## **HIRUDOID CREAM 20g & 40g**

**Anti-thrombotic & anti-inflammatory agent for external application**

**Composition:**

Heparinoid (Mucopolysaccharide Polysulfuric Acid Ester) bovine 3 mg/g

**Indications:**

Accidental or surgical injury: contusions, sprains, haematomas, bruises & swelling, and various inflammatory conditions of the veins requiring medical supervision. Treatment of scars: Loosening of scar tissue, improvement of scars due to injury or surgery.

**Contraindications:**

There are no known contraindications for the use of HIRUDOID

**Precautions:**

Keep the cream away from the eyes and do not apply to bleeding areas or open sores. If unexpected bleeding should occur, consult your doctor.

**Adverse reactions:** Very occasionally HIRUDOID will cause reddening of the skin in some patients. In this case treatment with HIRUDOID should be stopped.

**Dosage and Administration:** Unless otherwise directed by the physician, apply a 3 to 5 cm ribbon of HIRUDOID to the affected area once or twice a day as required and massage gently into the skin until absorbed. If the area is extensive or particularly painful spread HIRUDOID on it cautiously and cover with a dressing soaked with the cream. It should also be massaged around the edge of the affected area. For loosening of hard scars HIRUDOID should be massaged in firmly.

# Liquiderma® & Pinodor®

## Massage, Bath & Skin Care Products

- ✓ **Liquiderma®** is a range of high quality massage mediums, specially formulated for clinical use by professional massage therapists, they have a base of inert paraffin, non-irritant mineral oils, and are 100% free of **G.M.I.** (Genetically modified ingredients)
- ✓ **Liquiderma®** massage products are easy to use and they do not cause the skin problems that can be associated with long term exposure to some types of massage oil. They allow musculature to loosen up during the massage, and help to soften the skin, so the patient obtains full benefit from the massage.
- ✓ **Liquiderma® Sensitive** massage products are free of genetically modified ingredients, preservatives, fragrances and emulsifiers, ideal as a carrier oil and for use on sensitive skin.
- ✓ **Liquiderma®** massage products are mineral oil based, therefore have a long shelf life, will not stain your sheets or linen, and will not leave odours.
- ✓ **Liquiderma®** massage products have consistent slip and grip characteristics, helping to soften the skin, and allow the musculature to loosen up during a massage.

# Liquiderma® *Super Soft*

## Super-Soft Massage Lotion, 250mL, 1L, 10L

- ✓ Contains natural **Avocado oil**, an excellent medium for use in clinical physiotherapy.
- ✓ Protects the skin with high-quality avocado oil, and Vitamins A & E.
- ✓ With pH values of approx 5.5, it is mild on sensitive skin.
- ✓ Helps stabilise the skin's acid mantle and improve skins resistance to harmful environmental effects.
- ✓ Dermatologically proven and tested for optimal skin protection and rejuvenation.
- ✓ Leaves skin of patient and massage therapist soft and nourished.

Contains:

Aqua, mineral oil, Petrolatum, Polyglyceryl-2-PEG-4 Stearate, Trilaureth-4-Phosphate, Phenoxyethanol, Carbomer, Methylparaben, Propylparaben, Persea Gratissima, Sodium Hydroxide, Sorbic Acid, Perfume.

## Super-Soft Massage Oil, 250mL, 1L, 10L

- ✓ Contains natural **Avocado oil**, Vitamins A & E, and
- ✓ A pH value of approx 5.5 makes it mild on sensitive skin.

Contains: Mineral Oil, Arachis Hypogaea, Persea Gratissima Trilaureth-4-Phosphate, BHT, Perfume

## Super-Soft Massage Cream 1Kg

- ✓ A thicker texture, still retaining excellent slip and grip characteristics.
- ✓ A professional quality, easily-spread massage cream.
- ✓ Soft consistency useful for massaging smaller areas
- ✓ Improves the grip with all types of massage.

Contains: Aqua, mineral oil, Petrolatum, Ozokerite, Glycerin, Persea Gratissima, Glyceryl Oleate, Lanolin Alcohol, Magnesium sulfate, Phenoxyethanol, Methyl Dibromo Glutaronitrile, Perfume.

# Liquiderma<sup>®</sup> Sensitive

## Sensitive Massage Oil 200mL / 1L / 10L

- ✓ Pure Paraffin Oil with excellent slip and spread characteristics.
- ✓ Essential oils can also be added for an aroma-therapy or other type of benefit.

*Contains : Mineral Oil*

## Sensitive Massage Ointment 500mL.

- ✓ A product with a much thicker texture, making it easier to use in difficult areas or situations.

*Contains : Mineral Oil, Cocoa Caprylate/Caprates Isopropyl Myristate*

## Sensitive Ultra Massage Oil 1L

- ✓ A lighter-weight oil than Sensitive oil, with superior slip grip and spread characteristics.
- ✓ Essential oils can also be added for aroma-therapy or other benefit.

*Contains : Mineral Oil, Cocoa Caprylate / Caprate, Isopropyl Myristate*

## Basic 2 in 1 Massage Lotion 200 ml

- ✓ Provides optimal slip and grip characteristics for professional massage therapy.
- ✓ B group Vitamin Panthanol & Aloe Vera provide extra nourishment, and Allantoin maintains skin elasticity.
- ✓ Basic 2 in 1 is hydrophilic, and washes off skin easily.

*Contains: Aqua, Paraffinum liquidum, Isopropyl Palmitate Caprylic/Capric Triglyceride, Glycerol Stearate, PEG-20 Glycerol Stearate, Cetyl Alcohol, Panthenol, Carbomer, PEG14M, Allantoin, Aloe Barbadosis, Citric Acid, Ascorbic Acid, Methyl Dibromo Glutaronitrile, Phenoxyethanol, Sodium Hydroxide, Perfume.*

# Liquiderma<sup>®</sup> Basic

- ✓ **Liquiderma<sup>®</sup> Basic** Massage Oil has the same slip and spread characteristics as Sensitive Oil with added fresh fragrance of essential Lemon Oil.

*Contains: Mineral Oil, Dipentene*

- ✓ **Liquiderma<sup>®</sup> Basic** Massage Lotion has a thicker texture giving excellent application consistency for all types of massage whilst retaining excellent slip and grip characteristics.
- ✓ Skin friendly pH value, contains Panthenol, aloe vera and allantoin.

*Contains: Water (aqua) Mineral Oil (Paraffinum Liquidum), Isopropyl Palminate, Caprylic/Capric Triglyceride, Glyceryl Stearate, PEG 20 Glyceryl Stearate, Cetyl Alcohol, Phenoxyethanol, Methylparaben, Ethylparaben, Butylparaben Propylparaben Isobutylparaben, Panthenol, Allantoin, Aloe Barbadensis Gel, Carbomer, PEG-14 M, Sodium Hydroxide, Fragrance (Perfume), Benzyl Alcohol, Benzyl Benzoate, Citronellol, Butylphenyl Methylpropional, Linalool, Hydroxyisohexyl 3-Cyclohexene Carboxaldehyde.*

- ✓ **Liquiderma<sup>®</sup> Basic** Massage Cream has a much thicker texture whilst retaining excellent slip and grip characteristics.

*Contains: Aqua, Mineral Oil, Petrolatum, Polyglycerol-2-PEG-4 Stearate, Cetareth-20 Cetyl Alcohol, Phenoxyethanol, Carbomer, Chlorhexidine Digluconate, Propylparaben Methylparaben, Sodium hydroxide, Perfume.*

# Liquiderma<sup>®</sup> Thermo

## Heat Ointment 150ml / Heat Lotion 200 ml

Formulated with an extract of Spanish pepper (*Capsicum oleoresin*) to create an intense and deeply penetrating heat.

## Thermo Lotion 200 ml

- ✓ Provides a long lasting deep and mild heat to problem areas prior to massaging.

*Contains: Mineral Oil, Arachis Hypogaea, Trilaureth-4-Phosphate, Capsicum Oleoresin, Rosmarinus officinalis, BHT, Methyl Salicylate, Benzyl Nicotinate*

## Thermo Ointment 150 ml

- ✓ Provides a more intense deep heat, helps to avoid uncomfortable muscle reactions that may occur at the start of a massage

*Contains:*

*Petrolatum, Mineral Oil, Capsicum Oleoresin, Methyl Salicylate, Rosmarinus officinalis, Benzyl Nicotinate*

## Warning!

Not to be used by pregnant or breast-feeding women, or infants under the age of 3. Depending on skin type, there may be a temporary reddening of the skin. When using on sensitive skin, it is advisable to start massage with Vaseline or a barrier cream or oil. Keep away from the eyes or open wounds and keep area sheltered from direct sunlight.

# VULKANO® - PAK

The professional mineral heat-pack for Thermo-therapy

**VULKANO-PAK®** can be used successfully in the supportive treatment of muscle soreness, muscle injury, stiff neck muscles, neck pains, sciatica, lumbago and other rheumatic complaints.

(Provided that heat treatment is approved by a doctor).

It can be easily heated in a normal oven or microwave.

**VULKANO-PAK®** works on the principle of deep circulation. A large quantity of energy packed mineral granules provide increased circulation, and an intensive wave of heat energy, even to organs deep in the body.

- **VULKANO-PAK®** can withstand temperatures up to 150deg C
- The pack can be washed by hand using mild wash powder.
- Do not store when wet, after washing the pack must be dried in oven at 60 degC
- When using a microwave do not place pack directly on metal !
- When using on temperature sensitive skin the pack can firstly be wrapped in a towel to lessen the heat effect of the pack on sensitive skin.

Keep **VULKANO-PAK®** away from sharp objects

# PELA MUD LYE : 1 Kg, 10 Kg

A solution of natural mud, with a pH value of 6 (slightly acidic)

**COMPOSITION:** **PELA Mud** consists of approx 10% solids, 8.5% are humic acid compounds (free humic acid).

200g (a full bath) contains 191g fluid suspension of 6.8g peat-moss, 20g mud extract standardised to 8g Humic acid

**INDICATIONS:** **PELA Mud Lye** is a concentrated solution of natural ingredients used in European mud treatments to relieve symptoms of conditions such as inflammatory rheumatism and arthritis. Mud baths have been used in therapy for many centuries, in treatment of ailments such as rheumatism, lumbago, neuralgia, and peripheral circulatory problems

**PELA Mud Lye** bath treatments can be carried out in any bath tub, however it is advisable to rest for at least 30 mins after bath, and the bath should be cleaned immediately afterward.

Bath Type	Dosage (grams)	Time (mins)	Temp (Deg C)
Full bath	200g	10-25	37-38
Sit Bath	50g	15-20	38-39
Arm & Foot	25-50	10-15	38-40
Hand Bath	15-25	10-15	38-40

**DIRECTIONS:** Bathe for 15-30 mins at a temp of 37-38 deg C

## **WARNING:**

**Should not be used by persons with tuberculosis, high fever or low blood pressure, unless directed by physician. It is advisable to rest for at least 30 mins after bathing.**

# PINOmed

## Franzbranntwein
